

The Department of Public Works (DPW) is in the final stages of upgrading our billing software.

The update will allow us to offer several new features. Online bill pay via credit card or check will continue, new will be the ability to have bills emailed, auto pay, and view history online and more.

The new bills will be a full sheet of paper and will combine the Electric and Water/Sewer onto ONE bill. Both services will be billed monthly. In order to accommodate this we will be changing billing dates as follows: Town bills - 15th of the month due the 8th of the following month.

Village bills – last day of the month due the 23rd of the following month.

New billing dates will start with the February billing. Town water customers will be billed a prorated amount in February with combined one month bills starting March 13th. All village customers will be billed for water in February, one month or two months depending upon current billing cycle and combined bills will start in March.
